

# EVOKO GROUPIE

Puts you in the picture

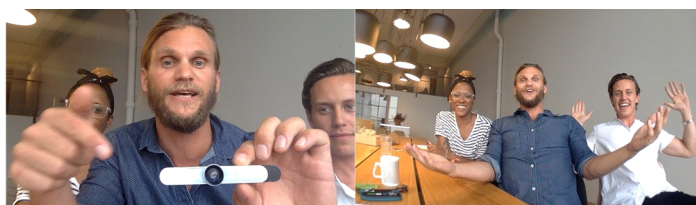

## The wide angle illumination lens

Evoko Groupie is the portable wide angle illumination lens that you can attach to any device. It sticks easily on the existing camera – enlarging and lightening up the field of view.

Making everyone in the meeting clearly visible. Small, enlightening, sharp.

## Fit everyone on screen

Widens the field of view to fit everyone, even their body language. For effective and fun communication.

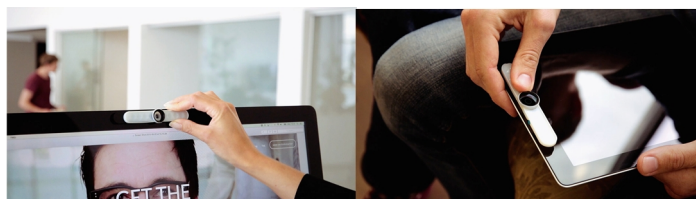

## Light enhancement in dark surroundings

The intelligent illumination system uses an ambient light sensor to light up you face in dark environments

## Sticks to all devices

Micro suction mount pad makes it easy to attach Evoko Groupie over the existing camera on computers, tablets and smartphones

## USB charging built in

Embedded battery  
1h charge = 4h full lighting
